

# Why this PhD Scientist Left a \$1 Million Job With No Plan and No Clue

From the outside, **Jennifer Gresham** had a dream career as a high-level Air Force officer and scientist. She had everything you're supposed to want, but discovered a great career can ruin your life.

Now she teaches people how to get out before it kills them.

According to recent surveys, **3 out of every 4 American workers would change jobs if the right opportunity came along.** The problem is: they have no idea how to recognize the right opportunity.

The common advice to "follow your passion" is hurting more than it's helping. **Jennifer developed a no-nonsense, six-step process that teaches people how to define success for themselves and overcome their fear to do the work they love.**

**Jennifer Gresham** and her inspirational stories have been featured in **Forbes** and **BlogcastFM**. She has also written for many of the top personal development blogs on the internet, including **Zen Habits**, named by **Time Magazine** as one of the top 25 blogs in the world.
